### TOBACCO AS LEGAL TENDER

In Colonial Times, and After. Weeds Were Locked Upon as Money in the South.

In colonial times, and indeed after the independence of the United States had been established, tobacco was legal tender in the southern states. Thus in Maryland and Virginia all government fees and taxes were payable in tobacco until 1806, when federal money was substituted. But in the meantime the District of Columbia had been ceded to the federal government, with such laws as were in force there, unless specifically altered by congress. So, as a consequence of the pressure of other work and interests upon congress, tobacco remained legal tender in the District of Columbia until recent times. As late as 1883 the fees of the clerk of the supreme court, for example, in any transaction where the federal government was itself a party, were still appraised in pounds of tobacco and settled at the treasury by the old standard of valuation. It is possible that there remain some exceptional fees overlooked by congress which may still be settled in tobacco.

**KNEW WHEN HE WAS HAPPY.**

The soul of an editor who died of starvation was being conducted to the Elysian fields. As they passed the portals of the infernal regions, he asked his guide if he might not go in and look around. The guide consented, but warned him to stay only a few minutes, as he could not wait long.

A long time passed, and the editor had not returned; so the guiding angel went in search of him. He found him before a cage in which a number of doomed wretches were being roasted on red-hot griddles. Over the cage was the sign "Delinquent Subscribers."

"Come," said the guide; "we must be going."

"Don't wait for me," replied the editor, "I'm not coming. This is heaven enough for me!"—Lippincott's.

### EUROPE WANTS OUR GRAPES.

Vice-Consul L. H. Munier of Geneva sends a clipping from a Swiss newspaper from which it is noted that more modern methods of grape culture are being adopted in Switzerland. The old vineyards have been attacked by phylloxera, in fighting which the government has already spent \$482,500. Now it is decided to replace the old vines with the more robust American vines. To aid the planters in the substitution the government has voted an annual appropriation of \$96,500, to extend over a period of 60 years.—Horticulture.

**THE CARBURETOR.**

The carburetor is an apparatus in which is effected the mixing of the fuel necessary for the operation of internal combustion motors. Such mixture is composed of atmospheric air and the vapors of a liquid hydrocarbon in proper proportions. In order that it may give the best results, a carburetor should furnish an accurately proportioned mixture, that is to say, one containing just the proportions of fuel required, and, moreover, containing such fuel as nearly as possible in the state of vapor.

**WHERE MEN ARE SCARCE.**

There is a parish in rural England, Linsell, that has not had a marriage in eight years. The men go away as soon as they are old enough to work and the girls are beginning to follow, and no doubt the time will come when there will be no people in the parish but those too old to work. The girls don't seem to have much trouble in getting husbands in London.

### BOSTON WANTS MORE QUIET.

The Boston Professional Woman's club has taken up the matter of unnecessary noise and held a meeting recently at which the subject was discussed by Mrs. Isaac L. Rice of New York, the prophet of the Anti-Noise association, and expressed their sympathy in material ways.

**THE BYSTANDER'S JOKE.**

"Oh, what will my wife say?" sobbed the victim of a reckless chauffeur.

"If she's anything like my wife," remarked a bystander, "she'll say 'it's your own fault.'" Which added a touch of levity to an otherwise serious scene.—Detroit Free Press.
